📍 Kiev   🌐 github.com/iMokhonko
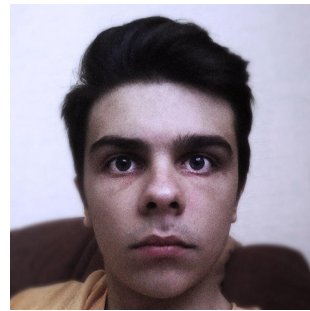

— Brief information —

I started learn programming since I was 13, my first language was PHP. I was writing web-sites, then I started learning Front-end. Now I am passionate about Java and I want to learn how to make web-application using this language.

Soft skills

Java Core	HTML	CSS
JavaScript	jQuery	SQL
PHP	MySQL	Node.JS
Amazon (EC2, S3)	Git	AJAX
Bootstrap, Materialize		

— Education —

NUFT   Computer Science and Information Technology
📅 09/2016 - наст. время

— Sertificates —

📅 09/2017 - 12/2017   Java developer, courses for students.

— About —

Interests   I'm interesting in developing web-applications that work closely with databases. Curious about real-time applications and games.

Motivation   I desire to get experience developing applications.
